

QuikRead go[®] Connectivity

Take full advantage of connecting your QuikRead go[®] system

Take full advantage of connecting your QuikRead go[®] system

Saving patient results in an electronic format increases patient safety by removing risks of false manual recordings. QuikRead go test results transferred to a data handling system coupled with patient and/or operator identification allow to achieve this goal. QuikRead go can be connected to Laboratory Information Systems, Hospital Information Systems or to Middlewares using a bidirectional POCT1-A2 connection.

Because...

ENHANCED PATIENT SAFETY

- » Send results automatically to reduce manual errors
- » Download patient lists to reduce errors
- » Add comments with results

REMOTE INSTRUMENT MANAGEMENT

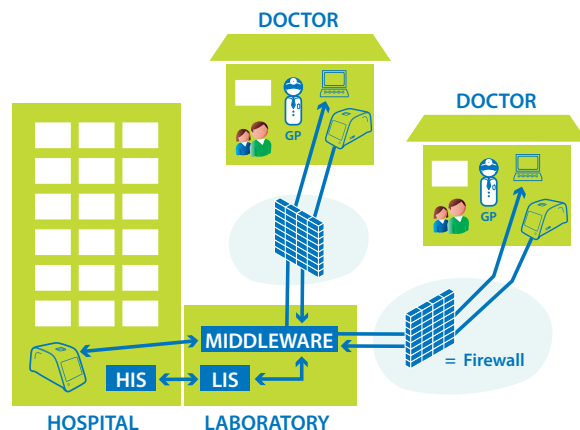

- » Lock/unlock QuikRead go instruments
- » Adjust instrument settings
- » Set QC limits
- » Update instrument software
- » Use quality control checking

REMOTE USER MANAGEMENT

- » Manage operator lists
- » Send information to QuikRead go operators

ALSO AVAILABLE

- » Unidirectional connection by LIS01-A2
- » Wireless connection with a WLAN USB stick
